

CHW360 — API Key Setup Guide

This document walks you through obtaining the API keys needed for CHW360's AI slide builder and YouTube integration. Each section includes step-by-step instructions.

Time estimate: ~20–30 minutes total for all keys.

Table of Contents

1. [YouTube Data API Key](#)
 2. [xAI \(Grok\) API Key](#) — LLM Provider
 3. [Stability AI API Key](#) — Image Generation
 4. [Replicate API Key](#) — Image Generation
 5. [Leonardo AI API Key](#) — Image Generation
-

1. YouTube Data API Key

Used for embedding and pulling YouTube video data into slides.

Steps

1. Go to [Google Cloud Console](#)
2. Sign in with a Google account (any Gmail works — ideally the organization account)
3. **Create a project:**
 - Click the project dropdown at the top of the page (next to “Google Cloud”)
 - Click **“New Project”**
 - Name it CHW360 (or similar) and click **Create**
 - Make sure the new project is selected in the dropdown
4. **Enable the YouTube API:**
 - In the left sidebar, go to **APIs & Services > Library**
 - Search for **“YouTube Data API v3”**
 - Click on it, then click **Enable**
5. **Create an API key:**
 - Go to **APIs & Services > Credentials**
 - Click **“+ Create Credentials” > “API Key”**
 - Your key will be displayed — copy it
6. **(Recommended) Restrict the key:**
 - Click **“Edit API Key”** (or click the key name)
 - Under **API restrictions**, select **“Restrict key”**
 - Choose **“YouTube Data API v3”** from the dropdown
 - Click **Save**

Send Matthew: The API key (starts with AIza...)

2. xAI (Grok) API Key

Used as an additional LLM option for slide content generation alongside OpenAI and Claude.

Steps

1. Go to [xAI Console](#)
2. Sign in or create an account (you can use your X/Twitter account)
3. Once logged in, you'll land on the dashboard
4. Go to **"API Keys"** in the left sidebar
5. Click **"Create API Key"**
6. Name it CHW360 and click **Create**
7. Copy the key immediately — it won't be shown again

Pricing note: xAI offers \$25/month free API credits to start. After that, usage is pay-as-you-go. For slide generation volume, costs should be minimal.

Send Matthew: The API key

3. Stability AI API Key

Used for image generation (Stable Diffusion 3, SDXL). Produces high-quality, stylistically diverse images.

Steps

1. Go to [Stability AI Platform](#)
2. Click **"Sign Up"** or **"Log In"**
 - You can sign up with Google or email
3. Once logged in, go to **Account > API Keys** (or visit platform.stability.ai/account/keys)
4. Click **"Create API Key"**
5. Name it CHW360 and click **Create**
6. Copy the key (starts with `sk- . . .`)

Pricing note: New accounts receive 25 free credits. SD3 costs ~3–4 credits per image. Additional credits can be purchased as needed.

Send Matthew: The API key (starts with `sk- . . .`)

4. Replicate API Key

Used for image generation via hosted models (Flux, SDXL, and hundreds of other open-source models). One key gives access to many different image styles.

Steps

1. Go to [Replicate](#)

2. Click **“Sign in”** — you can use your **GitHub account** (easiest) or sign up with email
3. Once logged in, click your profile icon (top right) > **“API Tokens”**
 - Or go directly to replicate.com/account/api-tokens
4. Click **“Create Token”**
5. Name it CHW360
6. Copy the token (starts with r8_...)

Pricing note: Pay-per-use only (no monthly fee). Image generation typically costs \$0.01–0.05 per image depending on the model. Very cost-effective for batch generation.

Send Matthew: The API token (starts with r8_...)

5. Leonardo AI API Key

Used for image generation with Leonardo’s fine-tuned models. Strong at photorealistic and stylized imagery.

Steps

1. Go to [Leonardo AI](#)
2. Click **“Launch App”** and create an account (Google sign-in available)
3. Once in the app, click your profile icon (bottom-left) > **“Settings”**
4. Scroll down to the **“API”** section
5. Click **“Generate API Key”** (or it may say “Get API Access”)
6. Copy the key

Pricing note: Free tier includes 150 tokens/day (roughly 30 images). Paid plans start at \$10/month for higher volume.

Send Matthew: The API key

Summary Checklist

Key	Where to get it	What to send
YouTube Data API v3	Google Cloud Console	Key starting with AIza...
xAI (Grok)	xAI Console	API key
Stability AI	Stability Platform	Key starting with sk-...
Replicate	Replicate	Token starting with r8_...
Leonardo AI	Leonardo App > Settings	API key

How to send: Please send each key to Matthew via direct message (email or text). Do not share API keys in shared documents or group chats.

If you run into any issues with any of these steps, just screenshot where you’re stuck and send it

to Matthew — happy to walk you through it.
